Lab 0: Matlab Tutorial

Aim

The aim of this lab is to become familiar with Matlab. If you are already familiar with matlab you can skip it.

1. Instructions

Register in the following address and follow the online Matlab Tutorial for students.

https://www.mathworks.co.uk/academia/student_center/tutorials/register.html

2. Further reading/practice

There are several other online tutorials, some more comprehensive than others. A good list can be found at:

http://www.mathworks.co.uk/academia/student_center/tutorials/launchpad.html

2. Submission
No submission is needed

First version of the lab original created by Ioannis Patras 05/10/2014
